

Meritor Part

Meritor Parts - The Meritor Business is a premier global dealer built upon one hundred years of tradition of quality and service. Meritor focuses on integrated systems along with a range of modules and parts to the original equipment manufacturers and aftermarket equipment in the transportation and industrial trades.

Meritor values the needs of all their clients to ensure their success while priding itself in the company's unique energy and feels this output of energy to be their competitive advantage in their worldwide operations. Meritor begins with a culture which values diversity of individuals and their broad thought processes. Operating in 19 nations and employing more than eleven thousand two hundred individuals, Meritor promotes innovation and collaboration amongst a team of knowledgeable experts.

Meritor strongly believes in just employing future focused individuals. These top-caliber workers can rapidly get used to to changing surroundings and freely exhibit the level of performance and commitment needed in order to obtain results for the competitive market environment. The business empowers their teams to make sound business decisions to be able to improve the overall success of the company. In return, Meritor provides their staff different opportunities for personal and professional development.

Their Advanced Engineering team is at the forefront of parts and system engineering that comprise axles, drivelines, braking and suspension systems used for medium and heavy duty trucks, trailers, off-highway vehicles, buses and military vehicles. The Meritor Advanced Engineering team is growing. They launched a new technical center in Bangalore, India in September 2009 in order to lead their advanced product development initiatives which represent the whole Asia Pacific region. This particular team is even responsible for supporting the needs of all their global engineering employees.

Meritor's customer focused and dynamic Quality team is committed to ensuring optimum processing at their aftermarket distribution facilities and production plants that are situated all around the globe in 19 countries and in 5 different continents.

The supplier development network is particularly situated to be able to support new business growth. Regional teams are supported by worldwide quality systems, centralized specialties and initiatives in Materials Engineering and Six Sigma. Meritor's growing Six Sigma program promotes a data-driven, fact-based method to decision making within each part of the company. The DFSS or Design for Six Sigma ensures product reliability in each region. The team is likewise included transactional Green Belts who use Six Sigma tools to business methods and implement lean techniques.
