

## Clark Forklift Parts

Clark Forklift Parts - Performing worldwide, there are at this time 350,000 Clark forklifts and lift vehicles in operation, with upwards of 250,000 of those operating in North America. Clark has five main lines of lift trucks across the globe, making it one of the most expansive corporations in the industry. Heavy duty trucks ranging from 1,500lb to 18,000lb capacities, dual fuel, gas, LPG, hand powered lift trucks, narrow-aisle stackers and electric riders are some of their specialties.

Clark Totalift, covers more than 120,000 specific items intended for 20 distinctive designs of forklifts and automated equipment. Your regional Clark Dealer is your total source for availability of all your parts needs provided by Clark Totalift.

Clark's extraordinary Parts Distribution Centers are conveniently located in Louisville, Kentucky, which serves both their clients and dealers in North America, and Changwon, South Korea, which handles their Asian dealers and consumers. For over 90 years, Clark has exceeded industry standards, being one of the most actively advancing companies. Driven to offer the highest level of value and service to our users, Clark remains on the cutting edge when it comes to improving productivity and benefiting performance.

Worldwide, Clark has one of the most impressive supplier support networks. With over 550 locations worldwide, dealer representation in over 80 countries and 230 locations in North America, their high level of commitment to their consumers predominates the material handling industry.

By pioneering the operator restraint system safety feature, Clark proudly remains a leader of modernization in the industrial equipment and automated lift truck industry. This exceptional commitment to safety is now a customary feature on every forklift.

Clark has a continual goal to have the No. 1 quality system in the industry which is demonstrated by their commitment to ISO standards. Clark, is the first manufacturer of forklifts and lift trucks to be globally certified with quality standard ISO 9001 in all of its manufacturing facilities. Also, the ISO 14001 Environmental Conservancy System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement permits Clark to be ready for any environmental restrictions, thus placing them in a dominant industry position.

Clark has chosen the structure of "Lean Production" at all of its assembly facilities for the reason that this method is extremely economical and permits minimal use of resources. Developed to ensure maximum proficiency, this system is intended to discover and acknowledge the most efficient ways for manufacturing plant stewardship. Clark has concluded this transition of its Korean facility. COPS which is Clark Optimized Production System, similarly focuses on quality of product and services and manufacturing efficiencies.

Clark's product engineers and suppliers communicate together to improve the efficiency and excellence of their products while minimizing costs. The new value engineering program combines innovative product improvement and provides superior client support and service within the industry.
