

## Concrete Hoppers

Concrete Hopper - The self-dumping hopper accessory could automatically start to both unload and release as soon as the bumper release contacts the side of a dumpster. Once dumping is finished, the hopper can go back to original upright and locked position. This particular piece of equipment also comes with a cable that enables operation from the seat of the forklift so as to have the option of manually unloading the hopper. There is a locking chain provided so as to lock the hopper to the fork truck. This product is made with reliable and consistent robotic welds for utmost strength. The forklift dumping hopper even has a blue powder coat finish so as to maintain durability.
